About Decimal

Decimal is the world’s first Financial Services platform to make it possible to provide advice to the mass market across a complete range of financial products, efficiently and compliantly.

Decimal achieves this by taking customer experience to a new level of simplicity through its patented big data analytics. The first to market model of robo-advice differs from current models through its omni-channel support, real-time compliance and in particular it’s extended product range. This includes, but is not limited to savings, mortgage, insurance, retirement savings, straight investment and post retirement products.

Decimal’s white label platform is designed for the largest enterprises down and offers full online configuration and customization to the enterprise’s look and feel. It is the only seamless end-to-end solution that helps manage every step, from finding new customers, to servicing them, through to execution and ongoing tracking.

Decimal has been architected ground up to leverage the benefits and scalability of a multi-faceted SaaS cloud platform.
