About Decimal

Decimal is an Australian based company, which has developed the world's first omni-channel, cloud based automated ('robo') advice platform. The platform, which includes embedded compliance features, enables enterprises to provide consumer driven financial advice and execution to the mass consumer market with global application. Prior to now this has not been viable or technically possible, providing DSX with a first mover advantage.

Head quartered in Sydney, DSX partners with Financial Institutions of all sizes including banks, superfunds, credit unions, insurers, mortgage brokers, dealer groups and advisors to enable the execution of Financial Service advice via a seamless omni-channel solution.

The Company was founded in 2006 by leading financial technology executive, Jan Kolbusz. Investment in enterprise grade infrastructure and build of the only end-to-end advice platform solution has taken 7 years and \$20m capital (fully expensed) with the go-to-market and commercialisation commencing in late 2014.
