About Decimal

Decimal is an Australian based company, which has developed the world's first omni-channel, cloud based automated ('robo') advice platform designed to work with any existing product. The platform, which includes embedded compliance features, enables enterprises to provide consumer-driven automated financial advice and execution to the mass consumer market with global application. Prior to now this has not been viable or technically possible, providing Decimal with a first mover advantage.

Decimal partners with Financial Institutions of all sizes including banks, superfunds, credit unions, insurers, mortgage brokers and dealer groups to enable the execution of Financial Service advice via a seamless omni-channel solution.
